Secrets of High Achievers Workshop

Impact your success using the secrets of High Achievers

Our goal at **Leadership Management Australia** is to create exceptional results for and through people. We assist our clients to develop the core Characteristics of High Achievers in their people to deliver maximum impact. Our range of leadership and management development programs empower learners to challenge themselves to go to higher levels. Through the power of goal setting, we enable true impact, progressive personal growth and career development and the achievement of mutually agreed goals.

We are realistic though – we know that as a decision-maker, you may have questions to ask before deciding to develop your people in partnership with a different training and development provider like LMA.

Accordingly we would like to invite you and some of your key people to attend one of our **COMPLIMENTARY** Secrets of High Achievers Workshops.

The purpose of the workshop is to:

- Explore the Characteristics of High Achievers to identify avenues for enhanced personal and organisational success
- Identify key productivity concepts to help you and your team achieve more
- Help you identify some key actions that will have an immediate impact on your personal and team productivity
- Explore the power of goal setting and the necessary actions to achieve greater organisational and personal success
- Successfully plan for further success in the months ahead

Dates: **16th July, 2024 & 24th July, 2024**

Time: **8:30am – 11:30am (AEST)**

RSVP: 03 9822 1301 | info@lma.edu.au

A Zoom link and workshop materials will be sent by separate email

We are the people
development people.
